

First Quarter Report
Three Months Ended January 31, 2010

Item 1. Exact name of the issuer and the address of its principal executive offices.

The exact name of the issuer is YoCream International, Inc.

The address of the issuer's executive office is as follows:

YoCream International, Inc.
5858 NE 87th Avenue
Portland OR 97220-1312

Phone: 503-256-3754
Fax: 503-416-2495
Website: www.yocream.com

Investor Relations: Terry Lusetti
Phone: 503-256-3754
E-mail: terryl@yocream.com

Item 2. Shares outstanding.

2010 first fiscal quarter:

Period end date	January 31, 2010
Common Stock	
(i) Authorized	30,000,000
(ii) Issued and outstanding (1)	2,607,898
(iii) Freely tradeable shares (estimated public float)	1,025,000
(iv) Total number of beneficial shareholders	N/A
(v) Total number of shareholders of record	116
Preferred Stock	
(i) Authorized	5,000,000
(ii) Issued and outstanding	-
(iii) Freely tradeable shares (public float)	-
(iv) Total number of beneficial shareholders	-
(v) Total number of shareholders of record	-

Item 3. Interim financial statements.

The following unaudited financial statements for the Company's first quarter ended January 31, 2010 are attached to this quarterly report and are incorporated by reference herein.

Unaudited Balance Sheet
Unaudited Statements of Income
Unaudited Statements of Cash Flows
Unaudited Statements of Changes in Stockholder's Equity
Notes to Financial Statements

Item 4. Management's discussion and analysis

Forward-Looking Statements

This Management's Discussion and Analysis and other sections of this Report contain forward-looking statements within the meaning of the Securities Litigation Reform Act of 1995 that are based on current expectations, estimates and projections about the Company's business, management's beliefs, and assumptions made by management. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve risks and uncertainties that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors including changes in demand for the Company's products, product mix, level of customer acceptance of new products, changes in customer relationships and strategic alliances, changes in distribution capabilities, excess or shortage of production capacity, changes in competitive or regulatory conditions affecting the Company's products, operations, pricing or service, and other risks discussed in this Report and from time to time in the Company's other financial reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic and international economic conditions. Such forward-looking statements speak only as of the date on which they are made and the Company does not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of this Report.

Results of Operations

YoCream International, Inc. is a world leader in the frozen yogurt industry. Since 1977, YoCream has pioneered the innovation, production and marketing of frozen yogurt and fruit-based frozen desserts and beverages. The Company operates a state-of-the-art production facility in Portland, Oregon, to manufacture its "true" frozen yogurt, which contains the real yogurt that is fermented and cultured on site daily.

YoCream's products are characterized by great flavor and significant health benefits. The Company offers over 110 flavors of frozen yogurt, ice cream, frozen custard, sorbet, smoothies, frozen carbonated beverages, slushes and frozen drink mixes. In addition to the YoCream brand, the Company also provides other branded flavors such as Hershey'sTM (e.g. Hershey'sTM KissesTM, Reese'sTM, YorkTM, Jolly RancherTM, TwizzlersTM, Bubble YumTM) and RockstarTM under exclusive licenses. Due to the nature of these products, sales are subject to seasonal fluctuations, with the summer months normally being the busiest season. The introduction and roll out of new products and growth in new market segments results in spikes in business which the Company views as normal operations.

YoCream sells its products primarily to a broad range of foodservice customers including frozen yogurt shops, convenience stores, warehouse stores, quick service restaurants, colleges, healthcare facilities, restaurants, and military and government foodservice locations. The Company's products are sold domestically and internationally through a strong and growing network of over 250 brokers and distributors to these thousands of retailers.

The Company has achieved outstanding growth in sales and earnings over the last several years. Fiscal year 2009 sales increased 18.1% to \$50,733,000, and fiscal year 2008 sales increased 52.4%, which were preceded by two additional years of double digit growth. Net income reached a record level of \$5,639,000 in 2009 compared with \$4,380,000 in 2008.

Sales for the three months ended January 31, 2010 increased 6.6% to \$9,214,000 compared to \$8,642,000, for the first quarter in fiscal 2009.

Frozen yogurt sales to the general foodservice market remain robust at a growth rate of 30.9%. Sales of a specialty product to a major national chain were impacted by the establishment of a secondary supplier; however, the Company expects to remain as the major supplier for this account. The Company continues to work with large national accounts, and four more are presently in test with different products. The expansion of smaller regional chains and the increase in independent shops throughout the country continues to increase consumer awareness of frozen yogurt and the enjoyment of frequenting these fun establishments. The Company recognized the needs of entrepreneurs for education about frozen yogurt and sound foodservice operations and established YoCream University (YO - U™) in August 2009. This intensive two-day course on starting and operating a frozen yogurt business is offered monthly for a modest fee. Some YoCream University graduates have recently opened their businesses and more are set to open before summer 2010.

Frozen beverage category sales for the first quarter of 2010 increased 5.1%. The Company anticipates future growth in frozen beverages with customer commitments to feature newer flavors like Ice Breakers™ Sugar Free Berry Splash and Peach Dragonfruit. Sales of the core Jolly Rancher™ Watermelon and Green Apple flavors will be complemented by new Jolly Rancher™ Tropical Tremor™ Pomegranate, Mango, Sour Green Apple and Wild Berry flavors. These items are sold, especially in convenience stores, both as frozen carbonated beverages and also as frozen slushes.

Gross profit margins for the first quarter increased to 44.2% from 43.5%, mainly due to economies of scale related to higher volumes.

Distribution expenses for the first quarter increased to 11.6% from 9.3%, when compared to the same period in 2009. The increase in distribution expenses during fiscal 2010 was primarily due to a shift in freight arrangements from “buyer pickup” to “delivered” freight. In this case the additional freight costs are offset with a corresponding increase in sales. There was also an increase in freight due to an increase in shipments going to further distribution points.

Sales and marketing expenses for the first quarter were flat at 8% of sales, when compared to the same period in 2009.

General and administrative expenses for the first quarter increased to 8.3% from 8.0%, when compared to the same period in 2009. The increases primarily relate to personnel costs in response to the Company’s growth.

Income from operations for the first quarter of 2010 was \$1,499,000 compared with \$1,573,000 for the same period in 2009. The change was due to the factors described above.

Interest expense for the first quarter decreased to \$106,500 from \$113,300 for the same period in 2009.

The effective tax rate in the first quarter of 2010 was 35.6% compared with 35.0% for the same period in 2009. The increase in the effective tax rate reflects the State of Oregon’s increase in marginal tax rate from 6.6% to 7.9%.

Net income for the first quarter of 2010 was \$901,700, or \$0.35 per share compared with \$954,600, or \$0.40 per share for the same period in 2009.

Liquidity and Capital Resources

In recent years, the Company has financed its operations and expansion from internally generated funds, bank loans, industrial revenue bonds and operating leases.

At January 31, 2010 and October 31, 2009 cash and cash equivalents amounted to \$6,330,000 and \$12,118,000, respectively. The decrease during the first quarter of fiscal 2010 primarily related to the payment of a special one-time dividend.

In November 2009, the Company declared a special one-time dividend of \$2 per share paid on December 1, 2009 to shareholders of record as of the close of business on November 17, 2009. Total dividends paid approximate \$5,173,000.

The Company has an unutilized bank line of credit of \$3,000,000, which matures in July 2010. In addition, the Company has an unutilized unsecured revolving line of credit which provides the option to borrow an additional \$1,000,000.

At January 31, 2010 and October 31, 2009, the Company had working capital of approximately \$11,498,000 and \$15,877,000 respectively.

The Company believes its existing assets, bank lines, and cash flow from operations will be sufficient to fund the Company's operations for at least the next twelve months.

Off Balance Sheet Arrangements

Through fiscal year 2009, the Company has entered into operating leases relating to certain assets utilized in its production process. There were no additional operating leases arranged in the first quarter of fiscal 2010. The Company also leases its offices, production facility and warehouse from a related party with terms of 15 to 40 years. These off balance sheet arrangements are more fully described in the notes to the Company's audited annual statements.

YOCREAM INTERNATIONAL, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE A – BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, which consist of normal recurring accruals, considered necessary for a fair presentation have been included. Operating results for the quarter ended January 31, 2010 are not necessarily indicative of the results that may be expected for the year ending October 31, 2010. For further information, refer to the financial statements and related footnotes included in the Company's annual report for the year ended October 31, 2009.

NOTE B – ADOPTION OF ACCOUNTING PRONOUNCEMENTS

In June 2009, the FASB issued "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles", which establishes the FASB Accounting Standards Codification ("ASC") as the source of authoritative accounting principles recognized by the FASB to be applied in preparation of financial statements in conformity with GAAP. The ASC is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Codification does not change or alter existing generally accepted accounting principles. The implementation had no impact to the Company's financial position or results of operations.

As of November 1, 2008, the Company adopted "Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109," which clarifies the accounting and disclosure for uncertainty in tax positions, as defined. Based on a review of its tax returns, the Company believes that its income tax filing positions and deductions would be sustained on audit and does not anticipate any adjustments that would result in a material change to its financial position. Therefore, no reserves for uncertain income tax positions have been recorded pursuant to the adoption. In addition, the Company did not record a cumulative effect adjustment related to the adoption of the standard. The Company's policy for recording any interest or penalties, if applicable, associated with audits would be to record such items as a component of income tax expense. There were no such items during the periods covered by this report.

NOTE C - INVENTORIES

Inventories consist of the following:

	January 31, 2010	October 31, 2009
Finished goods	\$ 3,498,891	\$ 3,842,871
Raw materials	935,682	974,379
Packaging material and supplies	259,108	334,649
	<u>\$ 4,693,681</u>	<u>\$ 5,151,899</u>

YOCREAM INTERNATIONAL, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE D – CURRENT AND LONG-TERM DEBT

In December 2003, the Company finalized the terms of the master finance lease facility in the amount of \$2,952,553. The facility provides for payments over seven years with interest at 30-day LIBOR plus 175 basis points. In November 2004, the Company exercised its option to enter into a swap arrangement to fix the rate at 5.88% for the term of the lease. The facility is collateralized by the initial aseptic system project assets, and by certain other equipment and fixtures.

On October 30, 2006, the Company closed the financing of multi-mode variable rate industrial revenue bonds in the amount of \$6,700,000. On January 4, 2007, the bonds were converted to tax-exempt bonds that provide for monthly interest payments at a weekly floating rate, which was 0.49% at January 31, 2010. The Company also entered into a ten-year swap arrangement, which provided for a rate of 4.08%, less 71% of the one month LIBOR rate (.16% at January 31, 2010, which has historically approximated the tax-exempt floating rate). At January 31, 2010 the overall effective rate was approximately 4.41%. Principal payments began February 1, 2008 and continue in varying amounts through February 1, 2038. The bonds are secured by a direct pay letter of credit provided by KeyBank National Association, which provides for an annual fee of 1.35% of the bonds outstanding. The direct pay letter of credit is for a rolling period of five years and is subject to review and extension each year. Due to the unusual events that affected the credit markets in the past year, the cost of extending the direct pay letter of credit was not feasible in October 2009. It was determined by all parties involved that a fifth year would not be added at that time. It is expected that the term will be extended to the original five years at the upcoming renewal date in October 2010. The collateral for the direct pay letter of credit is a reimbursement agreement, leasehold deed of trust on one of the parcels of property leased by the Company, an assignment of the lease on the other parcel leased by the Company, and a security interest in certain equipment with a cost of \$1,345,000, which was financed with bond proceeds.

In March 2007, the Company arranged financing for certain technology equipment, and software. At October 31, 2008 the balance on the line was \$139,000. In January 2009 this financing arrangement was converted to a two year term note with interest at prime plus 1.00%. The collateral for the term note is a security interest in certain technology equipment.

In November 2007, the Company closed a financing arrangement with the Portland Development Commission, which provides a grant of \$90,000 and a loan of \$90,000. The loan does not require any interest or principal payments during the first two years. The remaining term is 7 years, with payments based on a 20 year amortization schedule and a 1% interest rate. The financing was arranged in conjunction with adding a new energy efficient roof on the main plant building.

The Company has an unsecured bank line of credit which permits borrowing up to \$3,000,000. The line bears interest at the bank's commercial lending rate, 3.25% at January 31, 2010. The line is subject to renewal by July 2010. There were no amounts drawn on this line at January 31, 2010.

The Company also has an unsecured revolving bank line of credit that permits borrowing an additional \$1,000,000 with the same interest rate and maturity as described above.

The bank line of credit, master finance lease, and reimbursement agreement related to the bond financing all contain the same financial covenants, including ones related to the ratio of senior liabilities (as defined) to adjusted tangible capital, current ratio and operating cash flow to fixed charge

YOCREAM INTERNATIONAL, INC.

NOTES TO FINANCIAL STATEMENTS

as well as limits on the amount of common stock which can be repurchased by the Company. At January 31, 2010, the Company was in compliance with all of these ratios and covenants.

NOTE E – FAIR VALUE OF DERIVATIVE FINANCIAL INSTRUMENTS

In October 2006, the Company entered into an interest rate swap agreement relating to the multi-mode industrial revenue bonds, which converted the variable interest rate to a tax-exempt “fixed” rate of 4.08%, as described in Note D. This agreement will terminate on October 30, 2016. The mark-to-market adjustments were \$755,600 and \$791,700, and the related tax effects were \$(290,200) and \$(304,000) at January 31, 2010 and October 31, 2009, respectively.

In November 2004, the Company entered into an interest rate swap agreement relating to the master finance lease obligation, which converted the variable interest rate paid on its debt to a fixed rate of 5.88%. This agreement will terminate on January 1, 2011. The mark-to-market adjustments were \$9,500 and \$14,200, and the related tax effect was \$(3,600) and \$(5,500), at January 31, 2010 and October 31, 2009, respectively.

It is the Company’s policy to enter into agreements when management deems them useful in reducing risks to the Company. To the extent that the fixed rate is higher than the interest rates provided for in the lease or bond facilities, payment is due from the Company for the difference. To the extent that the fixed rate is below the interest rates provided for in the lease or bond facilities, the Company is entitled to receive the difference. As required by the Derivatives and Hedging Topic of the FASB ASC, the Company has reviewed and designated its interest rate swap agreement as a cash flow hedge and recognizes the fair value of its interest rate swap agreement on the balance sheet. Changes in the fair value of this agreement are recorded, net of taxes, in accumulated other comprehensive income. The hedge ineffectiveness, if any, is recorded in earnings.

NOTE F – COMPREHENSIVE INCOME

Comprehensive income for the three-month periods ended January 31, are as follows:

	<u>2010</u>	<u>2009</u>
Net income	\$ 901,690	\$ 954,567
Change in fair value of derivative financial instruments, net of taxes \$(15,700) in 2010 and \$183,800 in 2009	<u>25,100</u>	<u>(295,000)</u>
Comprehensive income	<u>\$ 926,790</u>	<u>\$ 659,567</u>

YOCREAM INTERNATIONAL, INC.
